Our Full-Stack Approach

Viral Reels

We engineered high-retention, close-up food videography designed specifically to trigger cravings and encourage local sharing among friends.

Ad & Creatives

Designed and deployed custom motion graphics, meme-style marketing, and bold static creatives to ensure the brand stayed top-of-mind daily.

Event Hacking

Tapped into local culture by covering events like Iftar parties and specific festival offers, seamlessly tying the restaurant to community events.

The Product Launch

"Mimi Chicken Hoot"

To introduce Aligarh's first Creamy Chicken Roll, we didn't just post a picture—we launched a craving.

By focusing heavily on texture, cheese-pulls, and high-quality videography, the launch reel captured immediate local attention, driving immediate physical sales at the register.

Result: 30.8K highly targeted local views.

Cultural Hacking (Bakra-Eid)

- ✓ **The Strategy:** Rather than just selling regular menu items, we launched the "Bring Your Own Raan" roasting campaign for Eid.
- ✓ **The Execution:** Showcased the behind-the-scenes chef preparation process, capitalizing on the festive mood and solving a specific customer problem (roasting).
- ✓ **The Virality:** The strategic use of local culture combined with raw, authentic content resulted in a massive breakout success.
- ✓ **The Outcome:** The campaign skyrocketed, becoming a massive local talking point and driving peak footfall during the holiday.
