CASE STUDY: SCALING A PREMIUM INTERIOR DESIGN BRAND

THE CHALLENGE

To establish a dominant digital footprint for a Gurugram-based interior design firm. The goal was to build a highly targeted local audience from scratch, generate massive organic awareness for their ₹599/sqft offers, and funnel qualified prospects directly into a WhatsApp lead-capture system.

STRATEGY & EXECUTION

- **Consistent Content Engine:** Executed a rigorous 6-month organic content strategy focusing on high-quality real estate tours and interior showcases, creating a highly bingeable feed.
- **Advanced Visual Direction:** Actively directed visual content creation, specifying framing, room layouts, and smooth transitions. By highlighting precise architectural details and color palettes, we maximized viewer retention on property tour reels.
- **Viral Organic Reach:** Engineered specific hook-driven reels (e.g., "Simple Bedroom Design") that bypassed the local audience bubble to go entirely viral.

THE RESULTS

500K+

ORGANIC VIEWS
GENERATED IN A SINGLE
MONTH

2.7K+

NICHE FOLLOWERS
ACQUIRED
(HIGHLY TARGETED
AUDIENCE)

135K

PEAK REEL VIEWS
(TOP PERFORMING
ORGANIC ASSET)

3.5X

AVERAGE ROAS
ON WHATSAPP LEAD
CAMPAIGNS

The Lead Machine: By combining viral organic reach (including multiple videos scaling past 70K, 100K, and 135K views) with strategic ad placements, we successfully loaded the client's WhatsApp metadata system with an estimated 400+ qualified local inquiries within the campaign window.

- **Integrated Lead-Gen Synergy:** Amplified top-performing organic assets with targeted local ads, routing a massive influx of traffic straight into the sales team's WhatsApp pipeline.
